LOS ANGELES FAMILY HISTORY CENTER

## PREFACE

With the 1890 Federal Census having been lost in a fire, an attempt has been made to bridge the gap between the 1880 and the 1900 census. This presentation is a list of the voters of Kern County, California covering 1890 and shows those who registered from February 1887 to May 1891, with heavy concentration being in the 1888 and 1890 election years.

Because this is a list of registered voters, it includes only males of voting age; no women or children. Among the 4,095 names on this list, it may contain some duplications where an individual moved from one area to another and re-registered.

Besides the person's name, this list shows his age, place of birth, current occupation, current residence, and the month and year he registered. Under the naturalization date is shown the year he became a citizen. If the word "father" is shown under the naturalization date, it means he became a citizen by reason of his father's naturalization. Under notes, the word "dead" appears where the registrant was known to have died. Also shown under notes is the information as to when a voter moved from one area to another. Occasionally, when both appeared, there was insufficient room to record them. For those who are interested in naturalization information, it may be wise to view the actual original books which are in the history vault of Beale Library in Bakersfield (as of 1991).

This project was started at the prompting of the California State Genealogical Alliance; and it is hoped that they will be successful in extracting all of the counties in the state and in compiling a state-wide index.

Special thanks to Shirley Jackson, Joyce Bayless, and J. Hoyle Mayfield for extracting the information from microfilm, to J. Hoyle Mayfield for putting the information into the computer, and to Shirley Jackson and Frances Eliades for proofreading this transcript.
