INTRODUCTION AND ACKNOWLEDGEMENTS

The Obituaries listed within does not include all deaths in the Kern River Valley, only those published in the 'Kern Valley Sun' newspaper. The first year available and copied was 1969 and this is a continuing project.

The gathering of Obituaries in book form was compiled through the efforts of the Clan Diggers Genealogical Society of the Kern River Valley, with the permission of the publishers of the 'Kern Valley Sun' newspaper. We would like to express our appreciation to these publishers for their cooperation, without which we could never have started this project.

It is our hope that this gathering of Obituaries will simplify the search for information on the relatives or friends that have gone before us and will further the interest in Genealogy.

The SURNAME INDEX includes only the name of the person deceased and does not include other persons that may be mentioned in the obituaries.

OBITUARY

Meningitis Fatal To Onyx Resident

An Onyx woman died March 6 of meningitis, according to Kern County Medical Officer, Dr. Leon M. Hebertson, M.D.

Dorothy Brown, 69, was hospitalized at Mercy Hospital, Bakersfield, prior to her death. Dr. Hebertson said he did not believe the Brown case and another meningitis case from Kernville were related.

Susan Stevenson, a teacher at Kernville Elementary School is recuperating from type-B meningococcal meningitis, a serious disease which put her in the intensive care unit of Mercy Hospital in Bakersfield and prompted school officials in Kernville to send warning notes to parents.

"We have not yet positively identified the exact type of meningitis in the Brown case. It takes sophisticated equipment to determine the exact meningitis type and tests are still un-

derway but I doubt very much that this second case is the same type and I feel it is another isolated case and not connected to the Kernville illness," Hebertson said.

"The reported meningitis cases county-wide are typical for this time of year and we must remember that there are many kinds of meningitis. Meningitis is like saying groceries...we must then determine what kind of groceries," Hebertson explained.

Dr. Hebertson also stressed that he has no reason to think meningitis is anywhere near epidemic stage

anywhere in Kern County and that includes the Kern River Valley.

According to a family spokesman, Susan Stevenson is recovering nicely at her home in Kernville. No date for her return to the classroom has been set.
