HOW TO USE THIS INDEX

Each surname entry is listed alphabetically as are given names. These are followed by age, place of birth (abbreviated), census page number/enumeration district number.

The Enumeration Districts (1-12) are found on microfilm in the order shown below. Location name and those page number(s) are indicated here.

See over for list of abbreviations used in this work. Beginning on page 151 are those listings with illegible or missing surnames, etc.

The Chinese population are not included in this index. However, listings have been extracted and are available for viewing at the PGS Library.

Note: Due to the difficulty in reading some of the records, the accuracy of this index is not guaranteed. We have made a best effort attempt in our compilation of this publication.
