"Those will not look forward to their posterity
who never look backward to their ancestors."
- Edmund Burke -

Also, let us point out that Statistiska Centralbyråns Arkiv in Stockholm has excellent collections of births, marriages, and deaths for each year from 1860 to 1947 and extracts from 'husforhorslangder' and parish registers for each 10-year period from 1860 to 1947 and extracts from 'husforhorslangder' and parish registers for each 10-year period from 1860 to the present time. From 1860 you can also find summaries of Swedes who emigrated to other countries, listed by parishes. Each person who emigrated is listed with his age, occupation, and the country to which he emigrated.

Be aware that records found in Sweden are written many times in Old German Script (Gothic) which was used in Sweden until the end of the 18th Century. Also be braced for poor penmanship, varying from parish to parish. Each Swedish archive usually has on hand lists of trained genealogists who can read these records written in Gothic Script and records in poor penmanship, and you can hire one of these to do your research for you. Be FULLY AWARE, however, that all genealogists do not have the goal as temple work, and many things can happen. BE SURE YOU KNOW YOUR GENEALOGIST!

Two aids for beginners are the books "Handbook i Slakt" (Handbook for Ancestors/Relatives) by Professor Bengte Hildebrand, and Ella Heckscher's book published in Stockholm in 1954 called 'Slaktforskning'. (Both are available in our Sacramento Branch Genealogical Library, or on order.)

With this thought, this article will be brought to a close: If we would just let Him, God could care MORE for people who could care LESS (about doing genealogy).

BOOKS ON THE LIBRARY SHELVES:

Colonial Families of the United States of America, Seven Volumes - Volumes I-VI Edited by George Norbury Mackenzie; Volume VII by Nelson Osgood Rhodes.

A standard work on colonial family history. An exact facsimile reprint of the original edition of 1907-1920. This work is devoted exclusively to the families who trace their ancestry back to the Colonial period. It covers the entire Colonial area, and is a standard genealogical work of reference for persons interested in their family histories and for genealogical researchers. It contains complete genealogical tables since the date of arrival of the emigrant in this country, with coats of arms and biographical and historical data on about 850 main families. It also includes English and Continental European ancestry in a few cases.

A Genealogical Dictionary of the First Settlers of New England, Four Volumes - by James Savage, with two added supplements.

This work on our New England forefathers includes the name and record of early emigrants to New England before May, 1692, without regard to his rank or fortune or to his age at the time of his arrival. It is a record not only of the emigrant himself, but also traces his descendants. It includes dates of his marriage and death, gives the record of the births, marriages and deaths of his children, and records the births of his grandchildren, bringing the family record down to the commencement of the third generation. It includes data on place of residence, offices held, occupation, etc.

The work is arranged in a single alphabetical listing under each surname. The GENEALOGICAL CROSS INDEX, which has been added, lists families about which information was given in the history of another family, and hence reveals a great deal more information about many families than could be found under the name. Also added is Mrs. Dall's "Notes and Errata," from the NEW ENGLAND HISTORICAL AND GENEALOGICAL REGISTER. All added to making a better edition.

Quaker Arrivals at Philadelphia, by Albert Cook Myers.

A List of Certificates of Removal Received at Philadelphia Monthly Meeting of Friends, 1682-1750. A chronological listing of Quaker immigrants registered upon their arrival in Philadelphia according to their certificates of removal from their respective meetings of Friends to which they belonged in other countries.

Originally published in 1902, it is of value to the genealogist interested in tracing early migration movements to Penn's Colony.
