PRELUDE

Research data information contained in *Immigration and Naturalization 1893-1952* was extracted from a Naturalization Data Card File located in the County of Kings, Superior Court Building, Hanford, California.

The records contained in this publication are for research only and should not be considered as official information. Some records have little or no information other than a name. Other records hold a wealth of information, including names, date of birth, place of birth, and the means of naturalization, such as Degree of Court, Father's Naturalization, Citizenship of Father, Married to a Citizen, Of Husband, Act of Congress, Act of Treaty, Date of Naturalization, Place of Naturalization, and other Remarks with Name of Family, and place to find other information.

Researchers are cautioned that name spellings are greatly varied. Many persons were illiterate and did not know the proper spelling of their own names; clerks and persons taking down the information were sometimes ignorant of proper spellings; pronunciations also varied, leaving one to guess at the proper spelling; and these records were mostly hand written, therefore hard to decipher or make out the spellings. You may need to look under all possible spellings, and realize that suffixes such as van, de, mc, etc. are sometimes deleted / added at will.

While this publication contains a wealth of information for research, it is not a complete record of those naturalized. It does not contain official data contained in the "Official Declaration of Intention", or "The petition of Naturalization."

ACKNOWLEDGMENT

The publishers of this book wish to acknowledge the courtesy and patience of Kings County, California and their employees. This project took many months for the compilers to screen and copy data from thousands of cards and make this valuable research publication possible.
