They Shall Not Be Forgotten - Volume 3 Last Names P Through Z

INTRODUCTION

THEY SHALL NOT BE FORGOTTEN

Recorded on the UCMC Cemetery Index System CISI. Published in three two inch D Ring Binders. The deceased person data consisting of 43,038 records is printed on 2,464 pages in alphabetical sequence. The publication known death dates range from April 8, 1860 (Alice Spangler, born in 1853) through the year 1993. It also contains some death dates for the years 1994 and 1995. Records are coded with 20 sort codes to indicate all the known Kings County Cemeteries, Oak Grove Cemetery, Unknown Burial Location, Burials outside of Kings County, The Cadets of WWII - U.S. Army Air Corps, The Last Flight of TWA Flight 8 on November 4, 1944 and Burials on Family Farms.

The cost of the publication is \$125.00. Only fifty copies will be printed in the first printing. A second printing will be made if warranted by reservations. Since the publication is very large, future publication of the records will be made on a Computer CD Disk program.

THE BEGINNING: In October 1975 indexing of Kings County Cemeteries was started as a project of the American Revolution Bicentennial Committee of Armona. The first phase of the project involved transferring cemetery alphabetical records to data entry forms, for loading into computer records. In the second phase, teams of volunteers recorded information from each tombstone or grave marker in a designated cemetery. At that time it was estimated that the completed index could contain approximately 30,000 records and that several years would be required to complete the project. The goal of the project was to record the data on computer files and then create print out listings, that could be placed in libraries for genealogical and historical research. Although a considerable amount of data was accumulated and stored on computer records, the project was not completed by the end of year 1976 when the Armona Bicentennial Committee became inactive.

PROBLEMS ENCOUNTERED IN THE INITIAL INDEXING PROCESS: The Cemetery Alphabetical Records available to the project, contained only basic information, such as last name, first name and interment location. There were several hundred grave sites in each of the larger cemeteries that were listed as "Unknown" There

were hundreds of "TGM" (small temporary grave markers) with limited name data, often very difficult to read. There were also many unmarked grave sites "NGM" (no grave marker) even though the names were in cemetery office records. Many of these problems were due to the fact, that prior to the formation of Cemetery Districts, the cemeteries were managed by private cemetery associations. Many of the early records were lost and were not available for transfer to the cemetery districts. Considerable research was required to validate data. Most of the work was done on a manual basis since Personal Computers as now available were not developed until the end of the 1980's.

THE PROJECT DURING THE PERIOD 1980 THROUGH 1990: Index teams continued with their recording work in the cemeteries with the exception of the Calvary Cemetery which was not indexed until the year 1994. The original plan was to index only through the year 1976. With the work continuing through 1990 many thousands of new grave site records were added to the task. Newer and more powerful PC Computers were obtained to handle the increased volume of data.

PUBLISHED BOOKS: On December 31, 1990, the first book "Memorial Day" was printed and published. It contained 62 records for the Kings River Cemetery; 94 records for the Lakeside Cemetery; 16 records for the Rhoads Family Cemetery; 20 records for the Taylor Family Cemetery and 8,891 records for the Grangeville Cemetery. The second book "Wheatland" was published containing 2,014 records for the Corcoran Cemetery. The third book, "Sunflower Field" was published on December 31, 1991. It contained 6,843 records for the Lemoore Cemetery. The books were printed in very limited numbers and were purchased by individuals, libraries, genealogical societies and universities.

NEW COMPLETED WORKS. The indexing and recording of data for all Kings County Cemeteries is now present in the publication "They Shall Not Be Forgotten". New additions are the Old and New Hanford Cemeteries, the Calvary Cemetery, the Chinese Sam Yup Cemetery, the I.O.O.F. Cemetery later to taken over by Kings County as the Kings County Indigent Cemetery, plus identification of U.S. Army Air Force Cadets killed in training during WWII and the Last Flight of TWA Flight 8 which crashed at 8 1/2 and Fargo Avenue in 1944.

SUPPLEMENTAL HISTORICAL DATA ADDED TO THE RECORDS:

With the printing of the first three cemetery books, it became evident that supplemental data would be required to make the records historical. Many of the early records consisted of name and partial locations only. As supplemental data became available it was added in condensed form to the data lines in the records. Following are some of the resources that were and are now being used: Death Records, Historical Books, early Census Records, early Tulare County Newspaper Records and probably the most important of all, the Old Mortuary Records. Many lost records have been reconstructed through this process.

DISCLAIMER: The records contained in this publication are not, and should not, be considered as any type of official record. Data as recorded used the best available sources to build the records, however many factors made the act of matching and recording difficult. In many cases different sources had different data on the same person. Often the Death Record, the Mortuary Record, the Census Record and the Gravestone inscriptions had conflicting data in death dates, birth dates, and names. Since all of these sources were built with data obtained from individuals, it is understandable that discrepancies would occur. Hard to read gravestone inscriptions, hand writing and spelling in the old ledgers and books, added to the problems of validating data. Some duplicate records for a given individuals may be in the records. Computer programs matched and corrected many records, however, if the record was in doubt it was not combined with another similar record. It is acknowledged that some spelling errors and typographical errors may exist in some of the information data. Often there was spelling errors in documents copied and a decision was made not to change the spelling when it was transcribed to information lines. Our most important consideration was to compile as much information as possible in records for researchers to view. Often it was in compressed mode. Since the data is on computer files, records are, and will continue to be updated or corrected based on valid information received.

THE RECORDS IN THE PUBLICATION: This publication is intended as a tool for persons searching for ancestors, other persons, or doing research. While we have, and still are, publishing books on the individual cemeteries, this publication makes possible the location of family names and family members regardless of where they were

interred. In the early days families bought complete lots for their family and over a period of time many family members were interred together. In some cases the elder members of the family were shipped back to their native state to be interred in family plots. As times changed and the burial process became more and more expensive, burial spaces were purchased only as required, thus a family could be interred in many locations through out a cemetery or in another nearby cemetery. There are many thousands of records in this publication that are not only correct but were difficult to find in any available records prior to the publication of the integrated records. Please note: Many records have been added from old Mortuary Records. Many of these records will not show a grave lot location and will probably not be known to the Cemetery Office.

Prior to 1946 many indigent or county burials were made in the Kings County Cemetery. The Hanford, Lemoore and Grangeville cemeteries also performed indigent burials under a contract agreement with the county. The agreement required them to provide grave spaces, place a cement marker above each grave bearing thereon a number corresponding with name and number of the deceased upon the official record maintained in the office of the cemetery. In some cases family members chose cremation and the ashes were interred in a cemetery plot. Sometime in the early 1990's the county in a cost containment program mandated that all indigent interments would be by the cremation process only. A family member could pick up the ashes at cremation site if they so desired for interment at their own expense at a cemetery. In accordance with the policy of most counties, the cremated remains if not requested from the crematory by a family member, are stored in separate boxes for at least seven years, in case someone came forward to claim and bury them. But for cost and practical reasons, the remains actually may be stored much longer, until there are enough to fill a common concrete grave liner. As in the case of any cremated remains that are not interred in a cemetery, the only real record of the deceased would be found in the death records maintained by the county, or perhaps in a newspaper obituary.

Early day indigent burials in Kings County were not just for John or Jane Does, or for the unknown poor. It was noted that many years ago, many persons who ended up in the county home for the aged, had been well known and some even prominent in their earlier years. Many just out lived their families, became sick or aged, and

exhausted their funds. Recently articles appeared in the Fresno Bee on September 11 and September 22, 1995 on the common burial of cremated remains. The article was about the remains of 293 men, women, children in Grave 53 and the work of Brian Copner in preparing a monument stone inscribed with the 293 names for placement at the grave site. The Central Valley Funeral Directors Association, financed the project. With the burden of indigent death costs to Kings County, it is understandable that the cost must be contained. It does seem, that a matter of record, that all persons, regardless of status, should at least be recognized with their names and death dates on a memorial wall or a common stone in the cemetery. The custom of names of names on a wall is not only present on monuments such as the Vietnam and the Korean Memorials in Washington D.C. but also in the thousands of names inscribed on Monument Rock, on the old west covered wagon trail to say, " I was here, I passed this way."

HISTORICAL RECORDS. The information data lines in early records often reveal historical and cause of death information. You will find references to murders, suicides, all types of accidents, epidemics and sickness. When the records are viewed in a chronological death date order, events such as the Mussel Slough Tragedy on May 11, 1880 is apparent. In 1918 the great influenza epidemic claimed many and often several members of a family. On November 4, 1944 TWA Flight 8 exploded and crashed at 8 1/2 and Fargo Ave., Hanford all passengers and crew lost. All true through 135 years of Kings County History.

SPECIAL RECOGNITION: - VOLUNTEERS: The work produced by this project would not have been possible without the many dedicated volunteer workers indexing grave sites in cemeteries. The volunteers consisted of genealogical researchers, youth groups from churches and organizations and salt of the earth persons who just wanted to help.

SPECIAL RECOGNITION TO: Whitehurst-McNamara Funeral Service of Hanford, California and Phipps-Dale Funeral Chapel of Lemoore, California for their lending of old mortuary books in their files, for posting to our computer records for this publication. Without these old books, many lost records would have never been reconstructed.

THE FUTURE OF THE PROJECT: There are still many cemetery records

that could be expanded with supplemental data and many lost records that can be found and reconstructed. If time permits and resources are available, the project could continue to up date records to the year 1950 from old mortuary books. We have been advised by Peoples Funeral Chapel of Hanford, California that their old mortuary books could be made available for this project. If the project continues an addendum will be issued which will include updated and or new records after the date of publication of "They Shall Not Be Forgotten.

CEMETERY AND RECORDS INFORMATION

STATE OF CALIFORNIA HEALTH AND SAFETY CODES PERTAINING TO THE OPERATION OF PUBLIC AND PRIVATE CEMETERIES: The Health and Safety Codes of the State of California contains code sections pertaining to many different items involved in the operation of cemeteries, both private and public. Several sections of the code or portions of sections which may be of general interest to persons doing research in a public or private cemetery are as follows: The data as listed in for information purposes only. All legal interpretations should be checked by legal counsel.

Section 8100: Cemetery Defined. Six or more human bodies being buried at one place constitute the place a cemetery.

Section 8101: Criminal Offenses. (a) Every person is guilty of a crime and punishment by imprisonment in the state prison or by imprisonment in the county jail for not exceeding one year, who maliciously does any of the following. (1) Destroys, cuts, mutilates, effaces, or otherwise injures, tears down or removes any tomb, monument, memorial, or marker in a cemetery, or any gate, door, fence, wall, post or railing, or any enclosure for the protection of a cemetery or mortuary or any property in a cemetery or mortuary. . . .

Section 8110: Keeping and Contents. The person in charge of any premises on which interments or cremations are made shall keep a record of all remains interred or cremated and the interment of remains on the premises under his charge, in each case stating the name of each deceased person, place of death, date of interment and the name and address of the funeral director.

Section 8126: The title to lands situated in or near any city and used by the inhabitants without interruption as a cemetery for five years is vested in the inhabitants of the city and the lands shall not be used except as a public cemetery.

Section 8128: Register. The governing body having control of a public cemetery shall require a register of name, age, birthplace, date of death, and burial of every body interred therein, to be kept by the sexton or other officer. The register shall be open to public inspection.

Section 8131: If not owned by a city or by a fraternal or beneficial association or society, public cemeteries are under the jurisdiction and control of the board of supervisors of the county in which they are situated.

GENERAL INFORMATION ON CEMETERIES REFERRED TO IN THIS
PUBLICATION

THE LEMOORE CEMETERY (CODE A)

Location: 1441 18th Ave., Lemoore, California 93245. Management: Lemoore Cemetery District. Office: Same address. Mail Address: P.O. Box 244, Lemoore, CA 93245. In Charge: K.L. Dudley, District Superintendent. Telephone: (209) 924-3439. History: 1892 Tulare County Atlas: Location - Twp 18 South Range 20 East, Section 34. 1/8 mile north of Hanford Armona Road and west side of 18th Avenue. Property of Byron and Follett with W.H. Byron property to the west. Note: Grave site location maps are not included. Locations for grave sites as listed in the publication are standard locations used by the Cemetery. The cemetery is well maintained. The Lemoore Cemetery District averages approximately 240 interment per year in 2 cemeteries (Lemoore and Grangeville) 38 acres.

THE LAKE SCHOOL CEMETERY (CODE B)

Location: 18530 Lacey Blvd., approximately 3/8 mile west of 18th Avenue. No markers mark the location. No record of burials are recorded in this publication. The small cemetery was adjacent to the Lake School and wooden crosses and small markers were present during 1910-1920. Remains may have been removed, however old mortuary books reviewed did not disclose this fact. The school was the first school to stand in Joil, Fresno County, which long afterward became part of Kings County. The Rhoads School, later called the Lake School was started in the year 1866. Reference: Tulare County 1892 Atlas: Location of Lake School. Twp 18, South Range 20 East, Section 27. Property of N. Winsett.

THE CORCORAN DISTRICT CEMETERY (CODE C)

Location: 4170 Waukena Avenue, Corcoran, California. P.O. Box 805, Corcoran, CA 93212. In Charge: Duane Dye, Superintendent. Telephone: (209) 533-3734. Interments per year: Approximately 75. District has one cemetery, 11 acres. The cemetery which is the latest in Kings County is well maintained. Locations used in this publication are standard Corcoran Cemetery locations.

KINGS COUNTY CEMETERY (CODE D)

Location: Behind a concrete block wall at the south east corner of the Old Hanford Cemetery on 10th Avenue about 1/4 mile west of 7th Street, Hanford, California. On the same site as the old I.O.O.F. Cemetery. It has been know as Potters Field and the Kings County Indigent Cemetery. This publication lists 370 records (obtained from old mortuary books), however there are indications of many more burials at this location. Interment dates from the year 1909 through the 1940's are identified in this publication. It should be noted that there were also many county indigent burials in the Calvary Cemetery, the Hanford Cemetery, the Lemoore Cemetery and the Grangeville Cemetery during this period and later. The cemetery has not been maintained for many years. All steel post markers with names embossed in metal plates have disappeared, A recent attempt to find ownership records for this old cemetery failed to identify any ownership by Kings County although both mortuary records and death records make reference to burial in the Kings County Cemetery. An attempt to locate a register of burials by the County of Kings in this cemetery has also failed. The only place in county records that any information could be found on burials in the Kings County Cemetery, was by a name search in official death records.

The following was stated in an article in the Hanford Sentinel, Saturday, January 11, 1975 titled "Tombstone Junkyards", pages 9 and 12, by Dianne Hardisty, Sentinel Staff Writer. Glen Gustafson, chairman of the Hanford Cemetery District board, reported his organization had also been approached by the county many years ago concerning the possibility of taking over the care of Potters Field. The high initial cost was also a factor in the county's move to abandon the project and make their own repairs which included marking the graves with small concrete plaques, grading the land,

removing the weeds and constructing a fence along the roadway. It is now twenty years later and other than the construction of the concrete block wall fence no other apparent improvements were made to the Kings County Cemetery.

THE I.O.O.F. CEMETERY (CODE E)

Location: Same as the Kings County Cemetery. Records this publication: 9.

Note: Old plot maps in file at county indicate the location as an I.O.O.F. Cemetery. Nearly all I.O.O.F. burials were made prior to the year 1910. Starting with the year 1909 references in the mortuary books began indicating burials in the Kings County Cemetery.

FARM CEMETERIES (CODE F)

Burial on farms located in Kings and Fresno and possibly Kern counties. This publication lists 7 records.

THE GRANGEVILLE CEMETERY (CODE G)

Location: On the west side of 14th Avenue, approximately 1/8 mile north of Armona. Cemetery is under the Lemoore Cemetery District. It is well maintained. Locations in this publication were extracted from cemetery records. No location maps are furnished with this publication. There is an office in the cemetery that can provide directions to the grave sites. See cemetery district reference data listed with the Lemoore Cemetery.

THE HANFORD CEMETERY (CODE H)

Location: At 10500 10th Avenue, approximately 1/4 mile south of the 198 Freeway, the Old Hanford Cemetery is on the west side of the road and the New Hanford Cemetery is on the east side of the road. Under the Hanford Cemetery District, 10500 10th Ave., Hanford, CA 93230. Telephone: (209) 584-3937. In Charge: Tim Arnold, District Manager. This district manages 4 cemeteries; Hanford Old, Hanford New, Lakeside and Kings River, 60 acres. The Hanford cemeteries are well maintained. Locations as used in this publication are standard Hanford Cemetery locations. Contact cemetery office assistance in locating grave sites.

THE INDIAN CEMETERY (CODE D)

Location: 15325 19th Avenue, south of Lemoore, California. The Tribal Cemetery of the Santa Rosa Rancheria Indian Reservation. The cemetery is managed by the Tribal Council. There are 123 records in this publication. Note: Records were taken from old mortuary books. The cemetery is an old cemetery. Reference: Tulare County 1892 Atlas. Twp 19, South Range 20, East Section 27 on the old Jacobs Ranch. John Heinz Property. 4 miles south of Lemoore on 19th Ave. There are many more burials than recorded. This cemetery is a country style cemetery. Many grave markers are wooden crosses and many markers have disappeared over the years due to fire etc.

THE KINGS RIVER CEMETERY (CODE K)

Location: On the south side of Dover Avenue, 1/2 mile west of State Highway 43. North of Hanford, Kings County, California. Records in the publication 75. This cemetery is believed to be the oldest cemetery in Kings County. It is managed by the Hanford Cemetery District. See Hanford Cemetery for information on district. Many years ago when it was a private cemetery it was subjected to a flood of the Kings River. After the flood tall grass grew in the cemetery and it was not maintained. At some point a tractor plowing the cemetery damaged and knocked nearly all of the gravestone out of line. The community got together and erected a large monument with all the names and dates in the cemetery. There are a number of gravestones left in the cemetery, however many are out of place. It is felt that there quite a few unidentified grave sites in the cemetery. The cemetery is well maintained for a small country cemetery. It appears that the district has approved a few recent burials in the cemetery.

THE LAKESIDE CEMETERY (CODE L)

Location: On the south side of Kent Avenue, 1.6 miles east of 10th Avenue, Kings County, California. Records in this publication 129. Cemetery is managed and maintained by the Hanford Cemetery District. See Hanford Cemetery. At one time the cemetery was next to an old country church. The building has been gone for years. Cemetery is well maintained. It is no longer an active cemetery. The cemetery is well

maintained.

THE OAK GROVE CEMETERY, FRESNO COUNTY, CALIFORNIA (CODE O)

Location: 19811 South Cedar Ave., Laton, CA 93242. About 3 miles west and 1 mile north of Laton, Fresno, California. We did not walk index this cemetery. The records were built from old mortuary records. Many old time families from the Riverdale Area and the Laton Area are buried in this cemetery. Since the Kings County boundary line run near Riverdale and Laton it was not unusual for Kings County residents to be buried in this cemetery. The cemetery appears to be well maintained. Records in this publication 152. Maintained by the Oak Grove Cemetery District. Address same. Manager: Vernon Davis. Telephone: (209) 923-4544. Interments per year 52, 1 cemetery 20 acres.

THE RHOADS FAMILY CEMETERY (CODE R)

Location: 1/4 mile south west of the historic El Adobe de los Robles. Stands about 1/4 mile west of State Highway 41 on a knoll in a field. Glendale avenue is about 200 yards south of the cemetery. Records in this publication 20. It is believed that a number of other unidentified persons are buried in this cemetery. The cemetery should be declared as a State Historical Site. The history of Daniel Rhoads one of the earliest pioneers in the area (in early days in Fresno County) is well known and documented in several publications. Although a private cemetery, the property was sold years ago and the cemetery has suffered severe vandalism and other abuse. It was a subject covered in detail in the Hanford Sentinel article "Tombstone Junkyards" on Saturday, January 11, 1975, written by Dianne Hardisty, Sentinel Staff Writer. Although words were spoke by local politicians and many persons acknowledged that it should be preserved as a Historical Site, absolutely nothing has been done to improve the situation during the past 20 years. The cemetery is small and could have easily been restored with a chain link fence and graveled thorough out, in the style of old farm cemeteries. The cost would not have been great, but perhaps the Sentinel writer was right about Tombstone Junkyard mentality of modern times. There are many state regulations that deal with cemeteries and

interments there, however apparently they are seldom applied to small private cemeteries.

Recently an interest has been expressed by a group of Daniel Rhoads descendants to restore this old cemetery, and to have it declared a State of California historical site. If they are successful in the formation of their association it is our opinion that the project deserves the support of Kings County historical groups and the County of Kings.

THE TAYLOR FAMILY CEMETERY (CODE T)

Location: About 150 yards south off 20125 Glendale Avenue, down a dirt lane to a grove of trees. 6/10 miles west west of State Highway 41. North of Lemoore, Kings County, California. Records in this publication 21. Another private cemetery sold with the land that has not been maintained for many years. Also the subject of the Hanford Sentinel article on January 11, 1975. A small cemetery which would not be difficult to maintain. At least one or more war veterans are buried here. Several well know pioneers are buried here.

BURIAL LOCATION NOT IDENTIFIED (CODE U)

There are 576 records in this category. Many are old, some are from recent obituaries which did not indicate place of burial. A number of them are cremations and may have been interred in a cemetery at a later date. As time goes on some of them are identified as interred in a specific cemetery, perhaps some readers of this publication may be able to provide information.

THE CADETS - WWII U.S. ARMY AIR FORCE PERSONNEL (CODE V)

Records of 64 deaths of U.S. Army Air Force Personnel who died while in training at the Lemoore Army Air Base or at other near by installations during World War II.

THE LAST FLIGHT OF TWA FLIGHT 8 (CODE W)

Records of 24 persons who lost their lives on November 4, 1944 when the commercial aircraft blew up over the north east section of Hanford, California and

crashed in a field at 8 1/2 and Fargo Avenue, Kings County, California.

INTERMENTS OUTSIDE OF KINGS COUNTY (CODE X)

Records of 1,352 interments outside of Kings County, California for Kings County Pioneers who either lived or died in Kings County, California.

THE CALVARY CEMETERY (CODE Y)

Location: On the west side of 10th Avenue approximately 3/4 mile south of Hanford Armona Road, Hanford, California. Managed and maintained by the Hanford Cemetery District. See Hanford Cemetery. Formerly a Catholic Cemetery. One of the most attractive cemeteries in the county, however due to circumstances stated in "Calvary Cemetery - Location Maps" the cemetery had many lost locations. Also contains a large mausoleum built by J. Clarence Rice.

GENERAL COMMENTS ON TOMBSTONE JUNKYARDS

With every cemetery book we have published, we have included a statement by the famous author "Gladstone", on the manner in which a nation or community cares for its dead.

In Kings County the Cemetery Districts have done a remarkable job in the maintenance of the cemeteries under their jurisdiction. The residents of Kings County can be very proud of these cemeteries.

It is very unfortunate that there are four abandoned cemeteries, three private and one public that are in a condition that no citizen of Kings County could be proud of. Mr. Gladstone's statement is very appropriate. The conditions at these cemeteries were well documented in the Hanford Sentinel article "Tombstone Junkyards" on Saturday January 11, 1975. That was over twenty years ago and nothing has been done or changed.

There has been many statements made on why changes for the better could not be made at these cemeteries and very few statements on how and why we should correct the problem. Most of the problems are that, those who say improvements cannot

be made, that it would cost too much, that they don't own the land etc., is that what they are really saying is they don't want to even try.

Without going into any great cost the Old I.O.O.F./Kings County Indigent Cemetery could be leveled, grass planted and a marker erected declaring that it is the site of many burials from the year 1893 to 1950. Many of the names of those interred are published in this book and many more are available in mortuary books, still to be recorded on the CISI Computer System. The cost would be small and the gain by the county in public relations great. This action would complete a plan that was started in the year 1975. The question of who owns the property seems irrelevant since many years of mortuary and death records reference burials in the Kings County Cemetery and in 1975 a newspaper article contained quoted references of county maintenance plans for the cemetery.

The same type of a work project could be applied to the site of the old Chinese Cemetery which is located just west of the the Kings County Cemetery. This cemetery like the I.O.O.F./Kings County Cemetery does not seem to have a known land ownership or even a record in Kings County records. A marker could be erected to honor the Chinese Pioneers of Kings County who were interred at this site (many were disinterred and returned to China and some may still be interred there). Many of the names of those who were buried there can be found in this publication and more could be added though the review of additional mortuary books. The time is long over due for recognition of the chinese pioneers, who helped build Kings County by their sweat and toil. They came with the railroads and stayed to become part of this county.

The action by descendants of Daniel Rhoads can be successful in restoring the small old Rhoads Cemetery and establishing a California Historical Marker for the site if they receive moral support from the Kings County community. It is important to Kings County to preserve its historical sites today. Tomorrow they may be gone.

The Taylor Family Cemetery problem still has to be resolved. However the cemetery is small and perhaps a few dedicated volunteers could clean up the cemetery and make it presentable. Our latest information indicated at least two war veterans are buried there.

Mussell Slough Tragedy: A grain buyer, came to Hanford with U.S.Marshall Poole as a Deputy U.S.Marshall. Went to remove settlers 3 miles north of Grangeville with Dept.William H. Hart (station agent) and William B. Clark (railroad appraiser). In the battle Crow emptied his revolver. His victims were James Harris, John Henderson, Dan Kelly, Archibald McGregor and Ed Haymaker. All but the latter died. Haymaker slightly wounded died a month later. Unarmed Crow left the scene. About 1/2 mile from the scene He was shot & killed by unknown person. <p>Re: Tulare County Times, Visalia, Calif. Thursday January 26, 1899. Hanford Sentinel: This evening Thomas Corkery, who came into town, notified Coroner Thomas of a gastly find on the south bank of the People's ditch, just north of the cemetery. A naked little female child, lying on the ditch bank.. Some heartless mother or father must have deposited that human evidence of crime, the body left without a rag on it., the fiend who did it had not the heart to cover it with the dust of mother earth. Investigated by: Coroner Thomas, his pardner Mr. Kelly & Dep.Sheriff Ayers.</p>

Re: Aaron S. Mooney, Un. ROF Book, #73: Ordered by: Doyle Bros. Died: November 22, 1892. Buried: November 22, 1892. Interment location not indicated. Burial assumed to be in the Grangeville Cemetery.															
DOYLE	Sarah	1876Jun05	G		1805Mar10			OLD		184	004			6917	G
Died Aged 71 years 2 months 25 days. Note: Recheck this grave stone. Re: Viginia Miles Doyle - Mother of Carlton Waldo Doyle. Birth date 1869Feb08? Amanda M. Doyle. Calton and Amanda had an infant son on July 10, 1869 who died September 26, 1969 after living about six weeks. That was before Carlton and Amanda moved to Grangeville. Sarah was born in Virginia. One grave next to Carlton's says "Mother" and the side of Carlton's grave facing "Mother" says 4 June 1876, 71 years 2 months 25 days which would be right for Carlton's mother. Note: Location Lot 184 vs Lot 182
