ORANGE COUNTY CALIFORNIA GENEALOGICAL SOCIETY

HOW TO USE THE GENEALOGICAL SURNAME INDEX

The white section of this book is an alphabetical listing of ancestral names submitted by members of the Orange County California Genealogical Society giving state or country and a date of the ancestor as follows:

B = birth	D = death
M = marriage	R = reside
ca = about or approximate	

Any person wishing to contact and exchange information with members for a particular surname should refer to the code number in the last column on the right.

The yellow section of the book contains a list of all the OCCGS members in approximate alphabetical order with their addresses, telephone and code numbers. The code contains both an alpha letter and a numeric number. To locate a member from the code number, note that the letter in the code is the first letter of the member's surname. The numbers represent the numerical sequence in that section of the alphabet. For example:

B16	BROWN, John E.
B17	BROWN, Lynda
B18	BRYAN, Payton

Information recorded in this book was taken from typed and handwritten information submitted by OCCGS members. I have attempted to be as accurate as possible.

Muriel Fitzsimmons
Membership Chairperson
